

Submitter: Amy Hagedorn

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I have a disability that makes it difficult for me to go to in person voting. I have loved being able to vote by mail because it allows me to not take extra time off work and navigate long voting lines. This right to vote by mail crucially supports civic engagement for women who are primary caregivers and working class folks who already work too much to take extra time off.
