SB210

I oppose making in-person voting on the date of an election the standard method for conducting an election. Our current system where people are able to drop off the ballots at their own convenience works great. I believe it actually encourages more voter participation because it is so much easier. It would be very difficult for me to make it out to a polling location on the day of an election and have to wait in line to vote. I also like the ability to review each item on which I am voting in the comfort of my home where I can more readily process and think about the issues and candidates. If you want to make a difference in potential fraud, make ballot harvesting illegal.
