

Submitter:	Eugenia Lund
On Behalf Of:	Myself
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

This bill is discriminatory. It will disenfranchise three individuals, all of sound mind who cannot drive to the polls - one 95-year old, one 65-year old with vision and ambulatory problems, and one 66 year old paraplegic. All of these people have been active in the democratic process, are of sound mind, who currently have ambulatory problems and do not or cannot drive themselves. This bill will disenfranchise them completely. Its' aims seem to be to deliberately harm our democratic process and to prevent thoughtful citizens from having input. It is apparent that the aim of this bill is to prevent Americans/Oregonians from voting.
