

Submitter: Myrna Jensen

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As someone who was born and raised in Oregon and who has lived and voted in other states, I can't say enough good things about our freedom to vote by mail. It encourages more people to vote, especially those who are elderly, disabled (permanently or temporarily), lack access to transportation, live in rural areas, work atypical schedules, juggle busy lives of caring for children and aging parents, and so much more.

This bill would disenfranchise voters, not encourage them to engage.

It is a slippery slope.
