Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I support this bill to end mail in voting and to require identification at the polls on Election Day.

It is the beginning of restoring credibility to to the voting process in Oregon.

Let's not stop with ending mail in voting:

No more registering voters at the Dept of Motor Vehicles or the Oregon Health Authority. Individuals may register to vote if they so choose. It is the choice of the individual, not someone at the DVM or OHA.

No more mailing ballots weeks before an election.

Purge the voter rolls of deceased voters.
