

Submitter:

Debra Friedrichsen

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose limiting voting to in-person on the date of an election. I have been an Oregon resident my entire life and have appreciated the convenience of voting by mail for most of my adult life. I appreciate that there are not restrictions on when I can fill it out and that I can take my time to read about the measures without feeling pressed for time at some kind of voting station. With mail-in voting, I do not have to worry about catching some illness from someone that might be sick at a voting station. My disabled neighbors can vote without accessibility issues. I can vote when it works for me without taking unpaid time off at my job.
