Oregon has SUCCESSFULLY and SAFELY utilized full vote by mail for over 20 years and I am strongly in opposition to changing what's NOT broken.

This wasn't an issue under eight years of President Bush, eight years of President Obama, but became one under the first term of the current fraudster cult leader in the White House. Along with his extreme supporters in their attempt to take down our democracy, they are attacking every opportunity for Americans to have a voice in OUR government.

And it makes absolutely no sense at all because vote by mail helps many of their constituents who live in rural parts of this state where vote by mail has made it exceedingly easier for those who live there to cast their votes.

My parents are 89 and 90 and being able to vote by mail means they can still participate in our democracy as it should be. It is just unconscionable that those with these far right extremist views be allowed to tear down the very fabric of our democracy.
