

Submitter: Horizon Harley

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Elderly, disabled, working class, and other marginalized groups that can't always get to voting booths won't be able to vote if this becomes the standard. People taking off work just isn't an option for some people. Disabled groups can't always get around easily to get to voting booths. That also goes for elderly people. This is also something that people find joy in, i personally voted by mail for my first presidential election in 2020 and have photos of that. That is a really big and cool memory for me, standing next to the ballot box. This is a really big decision that shouldn't be made without the voice of the voters and citizens of Oregon. This is what we wanted initially, because it gave us accessibility and a chance to vote for what's right.
