

Submitter:

Tara Kreft

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

It's essential that we make it easier for people to participate in our democracy. Having a verified ballot for each person who then chooses whether to send it in or not is not only secure but keeps us able to take care of our kids, work our jobs, and have the time to properly research our candidates. It would be unacceptable to change this vetted, successful system.
