Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please don't repeal vote by mail. This system has worked well for Oregonians for decades. It allows for more equal access to voting ... no one is blocked from voting due to work schedules, family responsibilities, transportation difficulties, long lines at certain precincts, health and mobility concerns, etc. It allows us to be more educated voters, as we can look up information as we vote on the down-ballot candidates and issues that we might not know a lot about. We can take our time. Please don't change a system that Oregonians like and have found empowering.
