

Submitter: Paul Reynolds
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210
To Whom It May Concern:

I believe mail-in voting is essential to our democracy. There's numerous reasons why a voter may not be able to make it to a voting place. It's also been proven many times over than mail-in voting is secure and reliable. There is no substantial proof of voter fraud by mail.

We file our taxes and register our vehicles exclusively online and by mail. This measure only serves to exclude registered, legal voters that don't fit the republican party profile. Shame on you for even proposing it.
