

Submitter: Lynn Boston

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

For Years I have used mail in vote and we would discuss the candidates and issues with my spouse and voting adult children encouraging them to engage. With their generation even if they are eligible to vote I am not sure with in person voting if they would take time off from work or seriously engage or even vote. I do not want to lose the opportunity to discuss how issues or candidates affect us as a family. Vote no to changing our voting by mail which has been easily implemented and secure.
