Mail in voting is proven secure and accurate. I have the option to drop off at a designated site, which is is a great option if I do not want to leave the ballot unattended. At my work, staff cannot all take election day off to vote - we feed people, including veterans and the elderly, and there are no days off. Mail in voting is needed for all those that need to work, that cannot drive (SO many of my friends amd acquaintances), and are caretakers. Thank you.
