How dare you even consider restricting mail-in voting in a time like this. We rely on mail-in voting! The elderly, disabled, and politically disconnected will have their voices silenced, as the GOP intends. Why are you turning on us?

Even if you went door to fucking door telling every Oregonian about the change, this will still disenfranchise voters at a crucial time in our democracy for SEVERAL election cycles. You know the day of the last election, there was a spike in Google searches asking AT THE POLLS where Joe Biden's name was. Be serious, do you seriously think Oregonians can start planning on taking time off work, going in person, to a distant gerrymandered polling station, waiting in line, hoping to get in before close, remembering all the new documentation you probably want? NO. ABSOLUTELY NOT.

I can't believe this is being given a credible discussion in my state. WE ARE PAYING ATTENTION.

Do better.
