

Submitter:

Stephanie Scott

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I voted in person California from 1964 to 1999 with no problems. Precinct were located in close proximity to most voters. If one could not vote in person absentee ballots were available. More importantly we got the results in most cases we got the results by the end of the evening or the next day. It is easy to figure out your votes before you walk into the voting booth. You do not need weeweeks.
