Measure, Appointment or Topic:

SB210

So not repeal this amazing system we have. It's good for turnout, it's good for people who may not be able to get off work on voting day, it's good for disabled folks who may struggle to get to the polling place, and it's good for anyone who wants to be able to take their time properly completing the entire ballot. To dismantle this system would be bad for Oregon and Oregon citizens.
