The Oregon vote by mail system is a model for the nation and should not be dismantled. It allows time for reflection and investigation to ensure citizens are voting in a way that aligns with their beliefs. Additionally, it provides the ability for people with disabilities or who have difficulty leaving their home the opportunity to vote. It does not require taking a day off of work or waiting in a long line. There has been no evidence of wide spread fraud or other concerns with the system as it stands and it should absolutely continue.
