SB210

Why get ride of something that has been working for the people of Oregon since 1998? I am proud that we Oregonians have a peaceful and no-stress process of making our voices heard. There has been very little fraud found in voting by mail. But there is been a lot of fraud found in the lifetime of Mr. Trump. Don't allow Mr. Trump's fear-mongering suede you from your better judgement. It is easy to test the outcome of your decision. Let the people vote on this by mail. If they respond and make their voices heard, that you know voting-by-mail is the better way to go.
