

Submitter:

Michelle Jolin

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has been a model of safe, secure, convenient voting by mail for decades. There is no logical reason to change it. Recreating in person voting would disenfranchise those without reliable transportation, the disabled, and create needless waits and lines to vote as we see during every election in certain parts of the country.

Oregon voters ask you to vote no on any bill requiring in person voting.
