Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is a totally ludicrous idea based on lies about "election fraud" that simply never happened. Oregon voting has been as safe as any state, and wildy more effective in turnout. It's been as positive of an election law that could have been passed to get more turnout, which should be the goal.

Any member of the state congress that votes for this is repeating lies. They should not be trusted to run our state and should be voted out (via mail in ballots) as soon as possible, regardless of political party.
