

Submitter:

Mary Batson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I prefer to vote by mail because I'm a senior citizen with health issues including diabetes and rheumatoid arthritis. My older sister is disabled due to a stroke which makes it difficult to walk safely. Voting by mail allows us time to study the measures at my own leisure. We also get a confirmation from the election office that our ballots were received and counted. Voting in person means I have to arrange transportation to the polling place, wait in line for my turn to vote and is very inconvenient and time consuming. Thank you.
