Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210. Oregon has been a leader in making voting easy for registered voters. Fraud and abuse are nearly nonexistent!

I remember when we voted at Peninsula Park. My mother volunteered to check in voters and ballots after voting. Some people even had precincts in their homes. Then Oregon began moving away from an antiquated system, making voting easier and convenient. No taking time off work. No waiting in line. No trying to figure out where your precinct is. No trying to get a ride, because you don't own a car. No looking for someone to watch the kids while you vote. The list goes on...

Now, a Republican wants to make it hard to vote in order to help a narcissistic president, who thinks it's ok to run rough shod over the checks and balances in government. Trump now says he wants to run again and is working on plans to subvert a system that is fair to all. I am so angry, I am shaking inside. This behavior must be stopped, here and now, before our state is in ruins!
