Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I love the vote by mail system, as it allows me time to research and fill out my ballot at my convenience. Eliminating vote by mail is an obvious attempt of voter suppression — there is no evidence of widespread fraud using the vote by mail system. Vote by mail is hands down one of the best systems for enabling people to vote quickly and easily, raising civic engagement across the board which is only a benefit to our functioning democracy.
