Oregon State Legislature

This note is in opposition to Seante Bill 210 on requiring photo ID and eliminating mail-in ballots.

The current mail in system seems very efficient.

Alleged fraud seems negligible.

My signature was challenged due to sloppy signature – So I know there is a check.

My wife is handicapped -getting her out to polling location would be a challenge.

My mother was in a nursing home for 10 years – mail-in was perfect for this.

Polling locations take manpower. It can be a challenge for working people to get to a polling location.

Handicapped individuals can vote without feeling rushed with the current system.

I believe the current mail-in system is more efficient. Legally voting should be convenient, not a chore or hassle. The proposal is nothing more than an attempt at voter suppression.
