As an Oregon citizen and small business owner, I want to comment on repealing mail-in voting.

Oregon's vote by mail system is both convenient and allows voting to take place with minimal impact on day-to-day business operations.

I feel very strongly that allowing my staff an opportunity to vote is critical. Now, they can do so without disrupting my small business (just 4 employees.) If they have to vote in-person, all on one day, would require a scheduling mess to allow each a chance to vote.

Please do not repeal mail-in voting.
