SB210

Mail in voting allows more people the chance to participate in the voting process by not requiring folk to take time off work to go to the polls on a specific day and stand in line for long hours. Even though employers are required to allow employees the time, some people just do not have the luxury to do so. Additionally, filling out a mail-in ballot from home allows users to comfortably research candidates and issues while filling out their ballots. The measure introduced to eliminate mail-in voting for everyone is a terrible thing for residents of Oregon. There is little evidence of any voter fraud and this stinks of voter suppression.
