Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I am in support of in person voting. Vote by mail and machine counting have proven unreliable due to lack of transparency in the system. This present method while convenient for voters lacks the personal engagement and participatory nature of in person voting. The existing system is slow, costly and unreliable, exhibiting all the hallmarks of current burdensome government processes needing to be reversed.

This is a resounding yes to a reliable in person voting process by and for the people while promoting engagement in our community.

Jerry Gillis
