Committee: Senate Committee On Rules  
Measure, Appointment or Topic: SB210

I am a handicap/handiable person. It is very difficult for me BUT I would gladly get out, in my wheelchair or scooter, and wait in line as long as it took just to have honest elections minus the machines that have been proven to be hacked.

Minus the counters all of whom are of one party.

Congress gave control of elections to ONE party, why was that???

We need to return to VOTER ID, PAPER ballots, and guarded ballot boxes that cannot be tampered with as they all were in Arizona and elsewhere.

If a finger print was good enough for Iraq, it should be good enough for us.

Also, no non citizen, not here legally should EVER get to vote. Their first act was a felony, why reward them by letting them change our form of governance.

I have no faith in any of our elections being elections. I think they are selections and all it takes is a clever cheat system which is what Oregon has.

This was proven when we submitted several thousand MORE signatures than needed to recall Kate Brown, and one small cabal counted the sigs and declared them false.

WE need to overhaul the whole system. WE need exceptions only for citizen in facilities, bedridden but not with dementia (which should be a disqualifier).

All others should be willing to do their patriotic duty and get out and vote.

If we can not ensure honest elections than we do not have a country, we have an elitist dictatorship.

And while you are at it, change the funding laws, make PACs illegal so citizens, not corporations and a few wealthy donors control everything.

Let candidates get on a bus and talk to the people, and run for office like what worked for centuries before congress got so clever and so greedy.

If funding went away, only true servants would run for office, but billions spent on elections?? It is indecent.

We should be the state that overhauls it all, we have been a leader, let's lead where it really matters, and get it back to OF, FOR, and by the PEOPLE.
