

Submitter: Danny Suarez

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I am writing to express my strong opposition to Senate Bill 210, which seeks to make in-person voting the normal method of voting and requires voters to present a photo ID when voting or requesting a ballot. While I support election integrity, I believe this bill would create unnecessary barriers to voting and disproportionately impact many eligible voters.

Requiring in-person voting as the default method undermines the accessibility of our elections. Mail-in and early voting options are essential for those who cannot easily reach polling places, including seniors, individuals with disabilities, rural residents, and those with work or caregiving responsibilities. These methods have been proven to be secure and widely used by voters across the political spectrum.

I urge the committee to oppose this bill and instead focus on policies that make voting more accessible while maintaining election integrity.

Thank you for your time and consideration.
