

Submitter:

Veronica Everett

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This has been the way since 1981. There is no reason to change what has worked with statistically limited voter fraud, and that has provided access to voting for our disabled and elderly residents. Don't fix what isn't broken! Keep Oregon's mail in ballots as is. As a resident of over 20 years, and a political science student, this is an unnecessary change that is just for optics and not for any practical reasoning.
