Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The proof that mail-in balloting is working is the history of voting in Oregon. Good percentage of voters are voting. It is easy and fool proof. I can study the issues and make out my ballot in my own time. No waiting in line or having work issues. If you want to require in person voting you would have to make it a national holiday and/or REQUIREMENT for everyone to vote, like they do in other countries!
