I strongly oppose Senate Bill 210. Oregon's vote by mail program is a shining example of democracy in action! It is a cost saving, time efficient, fully accessible system that brings the democratic process directly into the homes of all Oregonians, even those who live in remote areas. Upending the now long established status quo will be unjustifiably costly, both financially and socially. This is a simply a blatant act of public bootlicking by the MAGA-mad senator from Port Orford, and should be promptly voted down.
