I oppose this idea, but If this bill moves forward, please amend it so it goes on a ballot measure before all voters in Oregon.

I am a registered Republican and this seems like a wasteful and expensive change to a very efficient system. I mean wasteful in the broad sense, not just for state and local government, but to voters who have to waste valuable time and money to drive to a polling location and stand in line to vote. This would impact rural voters especially who have some distance to drive and transportation cost per mile is not cheap.
