Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Mail by vote is by far the most inclusive access to a citizen's right to vote there is - it fundamentally removes barriers, lessens costs, ensures privacy and encourages civil engagement. Any effort to dismantle our extremely successful vote by mail system is a direct attack on the ideals of representative government by the people by excluding large swathes of citizens from access to participation and is at the core- unamerican.
