

Submitter: Matthew Criscione
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

I want to speak today about Oregon 's voting by mail.

I've been voting by mail since I was 18 in the mid-80s. And it has been extremely convenient, and secure for me.

I've looked up voting accuracy that has happened in Oregon since wrote by mail and it is almost 100% accurate.

The gentleman from Port orford has never said anything about what's wrong with vote by mail. Other than the Republicans tend to lose out when more people vote in this Blue state.

Republicans are trying to score political points by getting people to not vote. Which is not the way a democracy is supposed to work. You don't want to disenfranchise the voting base.

I am against changing Oregon's vote by mail
