Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Citizens of Oregon have long cherished our State's mail in voting standard and have confidence that our elections are safer and voting right upheld through our current voting methods. This bill is a scam intended to attack Oregonian's voting rights and is another step towards authoritarianism by limiting the people's voice. I stand strongly opposed to the bill and believe that any supporters of this bill are doing so for their own means of retaining power rather than empowering their constituents. We the people of Oregon will not cower and acquiesce to the Project 2025 and Trump sycophants pushing this agenda.
