Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this bill. Mail voting has allowed me to make more informed decisions, saved time and encouraged me to vote in more elections. It has also resulted in greater turnout across the state. There is no point in changing something that is working well and if this bill goes through it would put an undue burden on people who work, people who care for children and people who do not have the ability to stand in long lines to vote. Thank you for considering and I hope you choose to oppose this bill.
