Senate Committee On Rules

Measure, Appointment or Topic:

SB210

PLEASE, retain Oregon's Vote-By-Mail! This is a safe, reliable way of voting. Oregon has been voting this way for many years, with minimal fraud or other problems. It is a safe and convenient way to vote, and I believe this convenience increases the number of people who vote. Elderly, those with medical or mobility issues, working people with limited free time, parents who would require child care, those with transportation issues....these are just a few examples of people for whom it is especially important to retain vote-by-mail! With vote-by-mail, no election spaces are required to secure or set up; no voting machines are required to purchase, maintain and set up; no election officials or volunteers are required to man election voting spaces. The mailing costs are far less than the expenses for setting up multiple statewide voting stations. Oregonians want to keep vote-by-mail!!
