

Submitter: Claire Scott

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

SB210 would disenfranchise far too many eligible Oregonian voters by taking away the voting lifeline that is our current vote-by-mail system. The least privileged among us are not afforded the luxury of taking time off from work or from taking care of their families to vote in person on election day. Vote-by-mail ensures that every eligible citizen who wants to vote has fair access. It also allows voters to take their time and research voting measures and candidates while filling out their ballots, rather than rushing through their ballots in the voting booths and potentially voting against their own interests.
