

Submitter: Edward Mitchell

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Mandatory in person voting is completely unnecessary and the push to remove mail in voting and force people to polling stations is a waste of tax payer dollars and disrespectful to the valuable time and resources of Oregon residents. Mail in voting works for Oregon and should be kept. Well run democratic countries have mail in voting including Germany, Switzerland, New Zealand and many more. Oregonians should be proud to have a voting system that is comparable to these countries and sets a standard for the rest of the United States.
