

Submitter:

Dorothy Wilson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting in our country's elections should be accessible and easy for everyone of legal age and status. Vote by mail has proven to be the best option despite claims that non-citizens are voting. These claims have never been proven and are just a ploy to disenfranchise millions of voters. Voting in person will make it more difficult for those living in rural communities and the poor who may not be able to afford transportation to vote. Please vote "no" on SB 2010!
