

Submitter: Bartholomew Brandner

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This is just a further attempt to disenfranchise voters by the Republican party.

I have 2 children in school, work full time, and have severe health issues that make going in to vote in person difficult, if not impossible. The fact that we have an amazing voter turnout, the fact that people like me are able to vote with ease, this speaks volumes to how good our system is as it stands.

I am tired of this constant attack on our democracy by a party that claims to be patriotic. It is nothing more than a further exemplification of the GOP's war on America, democracy, and general decency.

I am fully opposed to this bill, and anyone who actually gives a damn about democracy should be too.

Senator Smith, shame on you. You are an elected, American official, start acting like one.
