

Oregon Senate Bill 210 – Makes In Person Voting on the Day of the Election Standard  
Introduced by – David Brock Smith – Port Orford, OR

- Oregon's Mail in voting is safe and efficient, seen as a model for other States.
- Senate Bill 210 supporters claim it will enhance the integrity of voting. But there is no facts to support that there is an issue with integrity now!
- If it's not broken, don't fix it.
- The current President of the US a 34-time convicted felon, continually attacks mail in voting while this is exactly how he votes in his home State of Florida.
- This same Felon claimed BEFORE the 3 elections he ran in that IF HE LOST the election was rigged, but funny after he won in 2016 and 2024, he didn't claim it was rigged.
- Its all about the inability of Trump Republicans to accept they lost a free and fair election. They attack the voting system and file hundreds of frivolous lawsuits claiming voter fraud, but cannot produce ANY evidence to support that claim and lost every case. Then their Dear Leader incites an insurrection on J6 where police were attacked and died. These rioters were hailed as "Patriots" by Republicans when hundreds of these insurrectionists were previously convicted felons with charges like domestic battery, drug dealing and possession, armed robbery, rape, and more than 12 were convicted pedophiles. Yet Orange Putin pardoned them all!
- Republicans in many voting districts realize they can only win by cheating with bills like Senate Bill 210 designed to disenfranchise and bewilder voters with unnecessary procedures. This bill would require not only unnecessary complexity and require every voter to appear in person where no doubt Republicans would then utilize one of their other favorite dirty tricks - To post "Poll Watchers" outside the voting locations to monitor people coming in to vote and intimidate them into turning around and not exercising their constitutional right to vote. Intimidation by poll watchers or observers can take many forms: trying to view personal voter information or announcing that information out loud, challenging voters, taking photos or videos, or invading voters' personal space. All these types of actions can make voters or election workers fear for their safety or privacy.
- Senate Bill 210 needs to die right here in the Committee and stop wasting more taxpayer dollars on this joke of a bill.
