Thanks for taking the time to read this. This bill is ridiculous and a flagrant attempt at voter suppression. Our current voting system works incredibly well, and there is years of infrastructure built around it. Voter fraud is a fake "issue" being trotted out simply to shift us further from democracy. There's no way to effectively stand up vote in person structures, and only on voting day would make it impossible for so many Oregonians across all political parties. And, this is terrible for people with disabilities, rural voters, and anyone who can't afford to take time off to vote. The whole country should move to our system, to be honest. This bill must die and shame on the elected official who brought it forward.
