Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In filling out the form, I was given a limited choice for Position on Measure. I marked oppose when there was not an additional option for vehemently or even strongly. I have been voting by mail since it was initiated in Oregon. You have received countless objections to the passage of OR SB 210 so I will not reiterate the various reasons. I just want to add one more objection to the count against the passage of this outrageous bill.

Thank you.
