

Submitter:

Stephen Karmol

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this measure because it will decrease accessibility to voting. I so value the practice of sitting at home with resources I've gathered, and the ability to do further research on candidates and other measures and bonds, in order to make an informed choice as a voter. Especially when you consider that many candidates did not provide statements in the official voters' guide, the ability to do independent research -- even moreso with ranked choice voting as there are more candidates to consider closely -- voting by mail is an essential part of supporting voting access in Oregon.
