Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Removing vote by mail in Oregon is a heinous attempt at voter suppression. This system has worked wonderfully in our state with no evidence of any sort of widespread voter fraud. We have higher turn outs and more educated voters because of our current system. Repealing vote by mail would be a stain on our state and goes against our values. Vote by mail in Oregon is literally democracy at work - other states should be working to implement this and we should ABSOLUTELY not take this away from our people.
