Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I do not want to see any changes to the voting method in Oregon. I have serious back problems. Things like standing in line or sitting in uncomfortable seats for any amount of time is extremely hard. This whole suggested change is not in my best interest or the interest in democracy. Oregon has successfully voted by mail for so many years with little issue. Suddenly this is a panic button conversation but not based in any real problem but is merely just another thing out there to make people argue. Unted we stand divided we fall.
