SB210

Mail in voting is very important to the state as it increases our voters turnout & allows those not able to travel to a voting place, such as the disabled, elderly, every day workers who may be scheduled during those times, or single parents busy raising kids as some examples to know they can still share their voice and be heard in our democratic system & to strip that away from oregonians would be a disservice to all of us & nothing short of an act of voter suppression against those without means to travel to polling places
