Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail is incredibly important for my community and family to be able to vote. Access to vote-by-mail increases civic participation and removes barriers to participating in our democratic process.

Removing vote-by-mail opens our state up to major weaknesses - like reliance on polling places. This is a huge security risk for our voting population, easily disrupted by foreign adversaries, and can be a huge discouragement (waiting in line makes people less likely to want to do something)

DO NOT REPEAL VOTE BY MAIL.
